Mrs. E. West,  
137 Main St.,  
Menasha, Wis.

Catarrah  
of the  
Stomach.

### Robust and Strong--Splendid Appetite.

Mrs. E. West, 137 Main St., Menasha, Wis., writes:  
"We have used Peruna in our family for a number of years and when I say that it is a true medicine for catarrh and colds, I know what I am talking about."

"I have taken it every Spring and Fall for four years, and I find that it keeps me robust, strong, with splendid appetite, and free from any illness. A few years ago it cured me of catarrh of the stomach, which the doctors had pronounced incurable. I am very much pleased with Peruna."

### Bowels and Stomach.

Miss Mary Jones, 7918 Reynolds Ave., Chicago, Ill., writes:

"I can recommend Peruna as a good medicine for chronic catarrh of the bowels and stomach. I have been troubled severely with it for over three years."

"One year ago I began to take Peruna, the wonderful tonic for women, and I noticed a wonderful improvement at once. I took six bottles in succession and I always have it on hand to take some now and then when my cough is bad."

## GAS OUTPUT WILL BE MATERIALLY INCREASED

New Apparatus Soon to Be Ordered by Local Company

### WILL TREBLE OUTPUT OF PLANT NOW IN USE

New Electric Generator Set Is Held Up for Added Improvements

An addition to the gas plant of the Globe Light & Power company will be made within the next few months which will increase the output of that plant to fully three times the present production.

A new gas holder, capable of holding 50,000 feet of gas will be installed, as well as a new and up to date purifier. With the installation of this apparatus a number of other improvements will be added.

"Our business has increased to such an extent within the past few months that the enlarging of the gas plant is absolutely necessary," said Manager W. S. Sultan, yesterday.

"The new apparatus will be ordered at once and by next spring it should be installed and ready for use. This apparatus will increase the gas output to three times what it is at present and the new installation should be sufficient for the next several years."

"The slight trouble which we have experienced at the gas plant for the past few days has been entirely remedied and the usual good quality of the gas will be maintained in the future."

Owing to the fact that some changes will be made in the new engine which has been ordered for the generating set at the electric light plant, this installation will be delayed for several weeks.

After the engine was ordered it was found that late improvements in construction could be secured and as the result, these additions were ordered made before the engine was shipped from the factory.

The generator which will complete the new set will be of the most approved type. When this installation is complete, it will increase the "juice" output of the local plant fully one-third.

As the result, there will not only be an ample supply of electricity on hand for all demands, but a good reserve supply as well, which can be put in service in case of a breakdown of any one of the units at the plant.

Demonstration of the wonderful Duntley vacuum cleaner from 7 to 8 tonight, at the office of the Globe Light & Power company. Don't fail to see it.
